

They Appeal Instantly and Strongly to Persons of Discernment

**THE
Edwin Clapp
SHOE**

*The Finest Shoe
in America*

---and by persons of discernment we mean those who are not deceived by mere surface appearance, but who firmly believe in subjecting their footwear to a most rigid scrutiny before purchasing--persons who demand proof of durability and comfort, and who, in addition, are ever alert for the newest and best.

In offering you the Edwin Clapp Shoe, we firmly believe it superior to any shoe on the American market today at the price. None save the finest leathers are used in the making of this footwear, and only those workmen whose long years of experience have given them exceptional skill are employed in its making. The result is a shoe which for beauty of line, excellence of finish and supreme comfort, cannot be excelled.

Edwin Clapp Shoes are made for both men and women in all the new leathers, including Genuine Australian Kangaroo, Black Kidskin and Tan and Black Calfskin. They are also shown in the very popular Havana Brown Kidskin, with a splendid range of harmonious two-tone effects in Kidskin and genuine Buckskin tops.
